

EMTrack® 5.12 Release Notes

These notes describe enhancements in the EMTrack 5.12 release scheduled for Wednesday, May 25, 2022. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or support@juvare.com.

Resolution

An issue related to mobile push notifications was resolved. Now, administrators with access to multiple regions will only receive mobile push notifications for their associated locations.
