

EMTrack® Release Notes

These notes describe highlights of the EMTrack Web 4.0, Lite 4.0 and Mobile 2.8 releases, which are scheduled for Wednesday, October 31, 2018. More information about these features and enhancements is available through the Help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

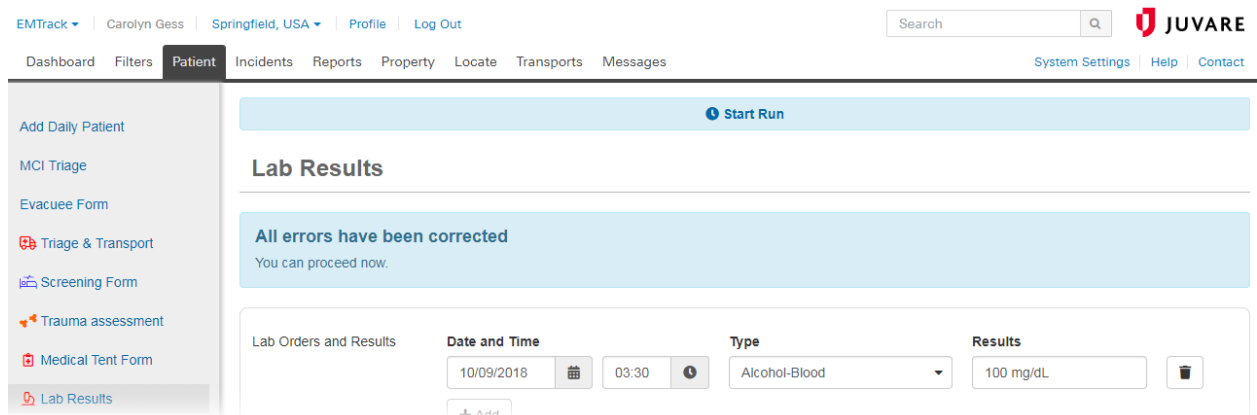

Redesigned EMTrack Lite for Windows

EMTrack Lite can be installed on Windows devices, providing you with quick access to a configurable list of patient entry forms while working online or offline. Additional features including PIN log in, prehospital patient notifications, and bi-directional communication with destination facilities that use EMResource or EMTrack are also available.

Improved Form Selection

The presentation of entry forms on the Patient tab can now be configured to appear in one to four columns, with or without representative icons, to facilitate your selection of forms.

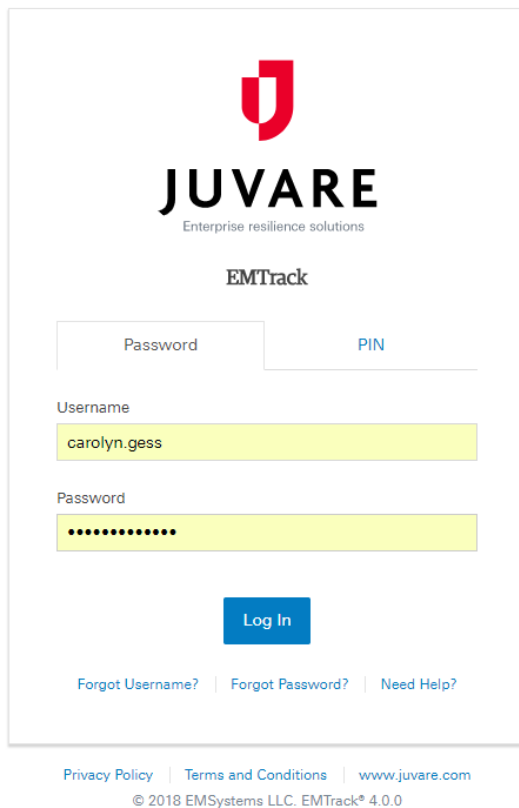

Enhanced Advanced Patient Notifications

Minor improvements allow you to include lab results on prehospital patient notifications and, for organizations using EMTrack to receive patients, view incoming patient notifications in chronological order with the soonest estimated time of arrival (ETA) on top.

New Juvare Branding for Desktop and Mobile

Simple visual enhancements on the login page, header, and footer provide a more modern and consistent look across Juvare solutions, and simultaneously streamline your access to key features and important information.

A screenshot of the JUVARE EMTrack login page. At the top center is the JUVARE logo (a red stylized 'J') and the text 'JUVARE Enterprise resilience solutions'. Below this is the 'EMTrack' label. The login form consists of two input fields: 'Password' and 'PIN'. Below these are the 'Username' field containing 'carolyn.gess' and another 'Password' field with masked characters. A blue 'Log In' button is positioned below the password fields. At the bottom of the form are three links: 'Forgot Username?', 'Forgot Password?', and 'Need Help?'. The footer contains links for 'Privacy Policy', 'Terms and Conditions', and 'www.juvare.com', along with the copyright notice '© 2018 EMSystems LLC. EMTrack® 4.0.0'.
