## Retracted Issue

### Resolved 8.2.0.1 Release Issue

Control panel loading issues were identified after a fix was applied in 8.2.0.1 to resolve display errors in relation to the **Create Record** viewlink and board permissions tags. Therefore, the issue has been removed with the 8.2.0.2 release.

In the forthcoming 8.2.0.3 release, Intermedix plans to address the board permissions tag issue with a new, effective resolution.
