WebEOC® Air and Cruise Module
Product Announcement

Version 1.1.1.1

This announcement describes changes made to the WebEOC *Air and Cruise Module* add-on. If you have questions about changes not covered in this document, more information is available on the WebEOC [Client Hub](#) or by contacting your Client Services Manager.

Resolved Time Entry Issue

The error encountered when saving a time record within the **Deployments** tab for a deployed team member has been resolved.

Removed pgr_numberofcaregivers Sort Field

The **pgr_numberofcaregivers** field has been removed from the table on the *AIR Passenger List View* page, eliminating any errors that you may have encountered when trying to sort columns by this field.

Fixed Display of the Family Member Input View for Users

Even as a user without administrative privileges, you can now access and view the AIR Family Member Input view.
