## New Incident Action Plan (IAP) Board Set

The Incident Action Plan board set, a newly revised add on for WebEOC, enables users to develop an unlimited amount of incident action plans and, in turn, use such action plans on a variety of incidents. With the option of using up to fifteen different ICS forms from FEMA, including the Organizational Assignment List (203), and the Daily Meeting Schedule (230), the IAP board set makes charting incident objectives or issues simpler, quicker, and more efficient than ever.

The left screenshot shows the 'IAP Operational Period' form for 'Incident: IMX Testing'. It includes fields for Incident Name (IMX Testing), Incident Number, Operational Period (Date From: 12/4/2015, Date To: 12/4/2015, Time From: 13:19:34, Time To: 13:19:34), and a list of ICS forms to include (ICS 200 Cover Page, ICS 201 Incident Briefing, ICS 202 Incident Objectives, ICS 203 Organizational Assignment List, ICS 204 Assignment List).

The right screenshot shows the 'Incident Action Plan' board set for 'Incident: IMX Testing'. It displays a table of ICS forms and their status:

Current Operational Period	Operational Period From	Operational Period To	Operational Period
Update Operational Period	12/04/2015 08:00:00	12/05/2015 08:00:00	Update
ICS Document Form	Status	View	
COVER SHEET (ICS 200)	Pending	Cover Sheet	
INCIDENT BRIEFING (ICS 201)	Pending	ICS 201	
INCIDENT OBJECTIVES (ICS 202)	Pending	ICS 202	
ORGANIZATION ASSIGNMENT LIST (ICS 203)	Pending	ICS 203	
INCIDENT RADIO COMMUNICATIONS PLAN (ICS 205)	Pending	ICS 205	
COMMUNICATIONS LIST (ICS 205A)	Pending	ICS 205A	

This new version of the IAP board set also includes Template and Publishing components. The Template component allows for the creation of a pre-established library of IAPs that can be accessed as needed. The Publishing component lets you keep a historical record of your IAPs for each operational period.
