Ad-Hoc Notifications Plug-In 1.22.0 Release Notes

These notes describe enhancements introduced in the Ad-Hoc Notifications Plug-In 1.22.0 release for eICS that is scheduled for Wednesday, July 28, 2021. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or support@juvare.com.

Enhancements

The list of notification recipients is validated and, when necessary, a warning message now indicates which recipients are missing contact details for specific delivery methods or channels.

Resolutions

Minor issues related to usability and navigation were resolved.
