

EMResource® Release Notes

These notes describe highlights of the EMResource 3.51 release scheduled for Wednesday, September 16, 2020. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or support@juvare.com.

Bulk Changes to Status Types

Introduced the ability to make bulk changes to Status Types, allowing you to manage changes more effectively within a region or across regions.

On the *Status Type List* page, you can now view all status types for all regions to which you have access. Also, a new filter bar at the top makes it possible to adjust the list by region and other fields.

Action	Name	Type	Event Only	Standard Type	Section	Description
Edit Statuses Sort	<input type="checkbox"/> Ambulance/Aeromedical Availability	Multi	No	Ambulance/Aeromedical Availability	No Section Assigned	Ambulance/Aeromedical A
Edit	<input type="checkbox"/> Available adult ICU beds	Number	No	Bed Availability: Adult ICU	No Section Assigned	Available adult ICU beds
Edit	<input checked="" type="checkbox"/> Bed Availability: Total Beds	Number	No	Bed Availability: Total Licensed	Statuses	Staffed and available Total
Edit	<input checked="" type="checkbox"/> Bed Availability: Burn	Number	No	Bed Availability: Burn	No Section Assigned	Bed Availability: Burn
Edit	<input type="checkbox"/> Bed Capacity: Burn	Number	No	Bed Capacity: Burn	Statuses	Bed capacity Burns
Edit Statuses Sort	<input type="checkbox"/> Facility Operational Status	Multi	No	Facility Operational Status	Vehicles	Facility Operational Status
Edit	<input type="checkbox"/> NEDOCS	NEDOCS Calculation	No	NEDOCS	Statuses	Sat score
Edit	<input type="checkbox"/> Saturation score	Saturation Score	No		Statuses	saturation
Edit Statuses Sort	<input type="checkbox"/> Status	Multi	No	Emergency Department	Statuses	ED Status

You can continue to edit status types individually or select multiple status types for bulk changes. When you select multiple status types and click the Bulk Change button, a list of the common fields for those status types opens. In general, selecting multiple status types of the same data type (for example, Number, Date, or Multi) offers more common fields for bulk changes.

On the *Bulk Change Status Types* page, status types selected for bulk changes are listed at the top. These status types can still be selected or deselected for changes. Additionally, the current selection for all common fields appears, along with other options, and a check box to the left of each field is automatically selected when a bulk change is identified. Saving the page enacts your changes to all selected status types.
