

EMResource®

Product Announcement

Version 3.37

This announcement describes changes made in the EMResource 3.37 release, which is scheduled for March 7, 2018. More information is available through the Online Help or by contacting your Customer Success Manager.

Performed General Updates

Several small technical updates were completed in an effort to maintain optimal performance and usability of the solution.

Introduced the Ability to Deactivate Sub-Resources

Sub-resources that are no longer in use can now be deactivated; and, deactivated sub-resources can be reactivated if necessary.

The screenshot shows a web interface titled "Sub-Resource List for Cape Coral Hospital". At the top, there are two tabs: "Severe Storm Advisory" (selected) and "Car Crash on Highway 5". Below the tabs, there are "system notice" and "help" links. A "back to list" link is also present. A checkbox labeled "include inactive sub-resources" is checked. Below this, there is a "Generator" section with an "Add Generator" button. The main content is a table with the following columns: Action, Icon, Name, Primary, and Active.

Action	Icon	Name	Primary	Active
Edit Deactivate		Generator 1		Yes
Edit Delete Deactivate		Generator 2	Set as Primary	Yes
Edit Delete Deactivate		Generator 3	Set as Primary	Yes

For more information, contact your Customer Success Manager or the support desk at 888-735-9559; in the support phone system, press 1 for Client Application Support and then press 6.
