

EMResource® Release Notes

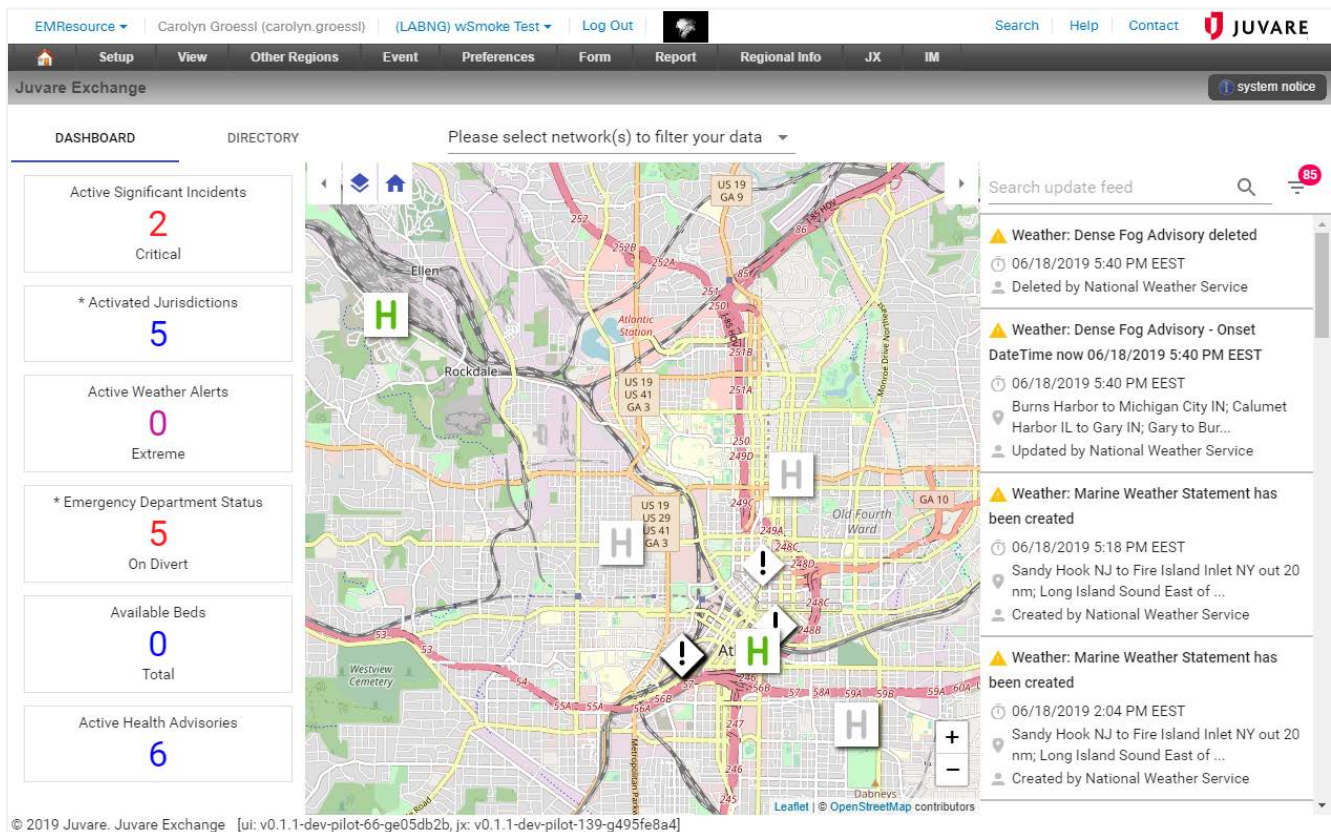

These notes describe highlights of the EMResource 3.42 release scheduled for Wednesday, July 17, 2019. Details about these and other features are available through your solution. For more information, please contact your Client Success Manager (CSM) or Juvare Support, 877-771-0911 or support@juvare.com.

Introduced Juvare Exchange

Juvare Exchange is the first-of-its-kind collaborative incident management network that breaks down organizational silos and optimizes information sharing to better protect people, property, and brands.

Connecting government agencies and departments, private organizations, corporations, and healthcare facilities in real time, Juvare Exchange fosters scalable coordination that improves situational awareness and response during local or national events.

Accessed from within EMResource and other Juvare solutions, Juvare Exchange offers essential data layers and establishes a framework for organizing and displaying the information that you and other participants share. From event information to emergency department status updates and bed availability, you decide what information you want to share and with whom you want to share it.

The screenshot displays the Juvare Exchange web application interface. At the top, there is a navigation bar with options like 'Setup', 'View', 'Other Regions', 'Event', 'Preferences', 'Form', 'Report', 'Regional Info', 'JX', and 'IM'. Below this is a 'Juvare Exchange' header with a 'system notice' button. The main content area is divided into three sections:

- DASHBOARD:** A vertical list of key metrics:
 - Active Significant Incidents: 2 Critical
 - * Activated Jurisdictions: 5
 - Active Weather Alerts: 0 Extreme
 - * Emergency Department Status: 5 On Divert
 - Available Beds: 0 Total
 - Active Health Advisories: 6
- DIRECTORY:** A map of Atlanta, Georgia, showing various jurisdictions marked with 'H' icons and '!' icons. Labels on the map include 'Ellen', 'Rockdale', 'Atlantic Station', 'Old Fourth Ward', and 'At'. A search bar above the map says 'Please select network(s) to filter your data'.
- Update Feed:** A list of weather-related updates on the right side:
 - Weather: Dense Fog Advisory deleted (06/18/2019 5:40 PM EEST)
 - Weather: Dense Fog Advisory - Onset (06/18/2019 5:40 PM EEST)
 - Weather: Marine Weather Statement has been created (06/18/2019 5:18 PM EEST)
 - Weather: Marine Weather Statement has been created (06/18/2019 2:04 PM EEST)
