🔰 JUVARE

Adding Pediatric and Flu Vaccinations to Juvare Events

Per IDPH Guidance: For vaccination Events created at events.juvare.com, the text found in the General>Settings tab should be reviewed and verified by POCs for age references regarding the Pfizer vaccine. Per CDC guidance: the new minimum age is now 5 years of age. Any reference that has been locally added to the POD/Event must be edited to reflect the new minimum age.

Overview

This document details the steps necessary to add the Pediatric COVID-19 and Influenza vaccination Products to a POD within Juvare Events

Adding the new Product(s)

- 1. Log in to Juvare Events
- 2. Navigate to the Event needing the new Product
- 3. Select Products on the left side
 - a. Click the Clone button next to a pre-existing Product

elow, you find a list of all available products. You can click on roducts within a give category.	a product name to inspect and change produ	uct details. You can also use the butto	ons on the right to change the order of
+ Create a new product			
Product name	Category		
First Dose - COVID-19 Vaccination #20928 @	۵ ک	↑ ↓	Ø 🖉 🖻
Second Dose - COVID-19 Vaccination	۵ ک	↑ ↓	6 4 6
Single Dose - COVID-19 Vaccination	≛ %	* *	8 2 8
Third dose/Booster Covid Vaccination	≜ %	↑ ↓	8 Q 0

- i. Rename the new Product as desired
- ii. Click Save and continue with more settings
- iii. Select the Availability tab
- iv. Update 'Maximum amount per order' to be one (1)
- v. Update 'Minimum amount per order' to be one (1)

Available until Optional	2000-12-31 00:00:00			
optional	This product will not be sold after the given da	te.		
Maximum amount per order	1			
Optional	This product can only be bought at most this n set it to 0, there is no special limit for this prod order applies regardless.	nany times within one order. If you keep the field empty or uct. The limit for the maximum number of items in the whole		
Minimum amount per order	1			
Optional	This product can only be bought if it is added to the cart at least this many times. If you keep the field empty or set it to 0, there is no special limit for this product.			

vi. Click Save

Note: These steps will need to be completed for each new Product being added to the Event. Ex: Pediatric Dose – COVID-19 Vaccination and/or 2021 Influenza Vaccination
