

Schedule an Appointment

Overview

The Illinois Department of Public Health (IDPH) is pleased to offer COVID-19 vaccinations for its population. Scheduling is performed online, where a series of eligibility questions will determine the priority and location of the vaccination event that you can attend.

To schedule an appointment

1. On your Internet browser, go to the address: <https://covidvaccination.dph.illinois.gov>. The IDPH site opens.
2. Click **Take the Screening Questionnaire**. The page opens.
3. Click **Yes** or **No** on the eligibility questions.
4. Select the check box for **I attest the above answers are true and correct**.
5. Click **Next**. The confirmation page opens.
6. Click **Confirm**. The locations page opens.
7. Locate the facility at which you would like to receive the vaccination and, on that row, click **Register**. The calendar view opens.
8. Locate and click an available appointment. The appointment view opens.
9. Click **Add to cart**. The checkout page opens.
10. Review your appointment details and click **Continue**.
11. Enter your personal information (such as **E-mail, Name, DOB, Gender, and Address**).
12. Click **Continue**. The review page opens.
13. Review your information to verify it is correct and click **Submit registration**.
14. The thank you page opens. Your order code and tickets appear on this page. Also, your tickets have been sent to your email. Make sure to bring your ticket to your appointment.
