

Open a Map from a Board

Home > WebEOC > Guide - Maps > Open a Map from a Board

If a board has been enabled with *Maps*, you may be able to access the map directly from the board record. An administrator will have configured this feature, making it easy for you to click a **Map** link or button and instantly see the board data element represented on a map.

Points of Distribution
2018-Hurricane Michael

Status: View All
