

Create a Coalition

Home > eICS > Guide - Settings > Create a Coalition

Coalitions are groups of facilities. Used as an alternative to regions, facilities in a coalition can be grouped by location, administrative boundaries, or any other commonality. Coalitions can be used in conjunction with the hazard vulnerability analysis (HVA) to summarize facility statuses and risks.

To create a coalition

1. Point to **Settings** and in the list, click **Coalitions**. The *Coalitions* page opens, with existing coalitions listed on the left.
2. Click **Add New Coalition**. The *General* drawer appears on the right.
3. For **Name**, enter the name you want to use to identify this group.
4. Locate and select the check box for all facilities you want to include in the coalition.
5. Click **Save**. The new coalition appears on the left.
