

About Regions

[Home](#) > [EMResource](#) > [Guide - Regions](#) > [About Regions](#)

If you have the appropriate permissions, you can edit your region's details, including the information for your regional contact.

Additional region-wide settings are also configured from the *Edit Region* page, such as the frequency of reminders to users about updating their user account and the frequency of audio alerts.

Note: Your region's default view is accessible to [other regions](#) when an active mutual aid agreement is on file.
