Actions

The summary tab provides access to several incident-related actions.

- Update Your Status From this tab, you can quickly and easily update your status.
- Edit, Escalate, End, or Close the Incident Authorized users can edit the incident's detail, end the incident, close it, or escalate it.

• Unlock Plan - The Domain Administrator can also unlock an incident's ICS chart from this tab.

This allows authorized users to work with certain chart elements, such as labor pool subgroups. Clicking this option unlocks the chart for this incident only.
