

Delete a Kit

[Home](#) > [EMSupply](#) > [EMSupply Kits](#) > Delete a Kit

Authorized administrators can delete kits. Keep in mind that, when you do so, any inventory still associated with the kit will also be deleted.

To delete a kit

1. On the **Inventory** tab, click **Manage Inventory**. The *Manage Inventory* page opens.
2. Click **change location**. The domain hierarchy pick list opens.
3. Locate and select the sub location.
4. To find the kit you want, do one or both of the following:
 - Enter all or part of the kit name in the **Search**
 - If you know the kit's category, open the **Category** pick list and select it.
The list shows the kit line items that match your criteria.
5. Select the kit. Its detail page opens.
6. Click **Delete**. A window opens asking you to confirm the deletion.
7. Click **Yes**.
