View Incident Details

Information about incidents, including details about the incident location, sub-locations, and provider access can be found on the General Information, Incident Sites, and Providers tabs when viewing Active, Pending and Complete incidents.

To view an incident

1. Click the **Incidents** tab.
2. In the **Showing** list, identify the status of incidents you want to see by clicking **Active and Pending**, **Active**, **Pending**, **Complete**, or **All**.
3. In the list, locate the incident and click its view icon. The incident details window opens with the *General Information* tab active.
4. Click the **General Information**, **Incident Sites**, or **Providers** tab to view those details.
